## The 11<sup>th</sup> International Conference of Management and Industrial Engineering

*“Towards Increased Business Resilience: Facing Digital Opportunities  
and Challenges”*

### ICMIE 2023

November 16<sup>th</sup> – 17<sup>th</sup>, 2023

The ICMIE Conference will take place in person on the 16<sup>th</sup> – 17<sup>th</sup> November, 2023, and will be hosted by the University POLITEHNICA of Bucharest, Romania

#### CALL FOR PAPERS

The 11<sup>th</sup> International Conference of Management and Industrial Engineering, ICMIE 2023, will be organized by the Department of Entrepreneurship and Management, Faculty of Entrepreneurship, Business Engineering and Management from University POLITEHNICA of Bucharest, on November 16<sup>th</sup> – 17<sup>th</sup>, 2023, in Bucharest, Romania. According to the ICMIE tradition, ICMIE 2023 will cover major areas of R&D and education related to management and industrial engineering.

**The aim of the conference** is to provide an opportunity for academics, management practitioners and researchers to debate new concepts, approaches, and innovative practices to increase business resilience in a digital world moving through the crisis. Business resilience is an organization’s ability to recognize and adapt to unexpected and acute crises and represents a source of sustainable competitive advantage. A key aspect to investigate further is the link between digitalization and business resilience. Digital transformation has received great attention in the last decade, but we need to explore how digital technological advancement can be fostered to increase the business resilience of organizations. In times of crisis, companies have opportunities to make fundamental changes, improve business processes and start new businesses that will enable them not only to survive, but to thrive.
